

# Fire Safe Family

**Dear Parent or Guardian,**

Your child can be a Fire Safety Hero!

Using the information in this activity booklet can prevent fires and save lives if there is a fire. Work with your children to complete the activities. Discuss the safety tips, then practice fire safety and your fire escape plan as a family.

Complete the information on the inside front and back covers and post it where everyone can see it, for example, on the refrigerator or in the hallway.

Go to **[www.redcross.org/disaster/masters](http://www.redcross.org/disaster/masters)** and click on Fire Prevention and Safety for more information and activities to keep your home and family safe from fires.

Have fun and stay safe together.

*This home fire safety activities booklet was developed through the generous support of the U.S. Fire Administration and the resources of the American Red Cross.*

*Together, we can save a life*
