Sendai Framework Data Readiness Review - Report - Latvia

Generic

Do you have a national database for collecting disaster losses?

No

When do you plan to start collecting data attributed to disasters?

Currently appropriate approach to collecting data attributed to disasters is being analyzed.

What resources do you need to collect data on disasters?

Capacity

Financial

Technology transfer

Global target A: Substantially reduce global disaster mortality by 2030

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters ?

Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental,

technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters disaggregated by event?

Yes

Do you collect number of deaths attributed to disasters associated with a hazard type?

Yes

Do you collect number of deaths attributed to disasters disaggregated by location?

Yes

Do you collect number of deaths attributed to disasters disaggregated by age?

Yes

Do you collect number of deaths attributed to disasters disaggregated by sex?

Yes

Do you collect number of deaths attributed to disasters disaggregated by disability?

Yes

Do you collect number of deaths attributed to disasters disaggregated by income?

No

Does the collected data cover the entire period 2005 - 2015?

No

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-3: Number of missing persons attributed to disasters, per 100,000 population.

Do you collect number of missing persons attributed to disasters?

Yes

Global target B: Substantially reduce the number of affected people globally by 2030

Global target C: Reduce direct disaster economic loss in relation to global GDP

Global target D: Substantially reduce disaster damage to critical infrastructure

Global target E: National and local DRR strategies by 2020

Global target F: Substantially enhance international cooperation to developing countries

Global target G: Availability of multi-hazard early warning systems and disaster risk information
