

You can make your **NEW HOUSE** safe against **EARTHQUAKE!**

**FOLLOW 10 RECOMMENDATIONS**

**For Single Storey Masonry Houses in Cement Sand Mortar**

## 6. Doors & Windows

- Location of Doors & Windows: Doors and windows should be placed at least 2 ft. away from the wall corner;
- The total length of doors and windows in a wall should not be more than 50% for single storey construction;
- Gap between two openings: Wall length between any two openings (doors and/or windows) should not be less than 2 ft.;
- Keep lintel level same for doors and windows.
